### Data-Driven Blue Cities at Smart City Expo 2025

On 6 November 2025, the session “Data-Driven Blue Cities” took place at Smart City Expo World Congress (Barcelona), bringing together EU projects and coastal authorities to explore data-driven tools for climate resilience and Blue Economy planning. As session lead, OCEANIDS presented its decision-support solutions co-developed with 13 European user regions, alongside contributions from VALORADA, EDITO and SeaCLIM.

## - Malaga, Spain

The OCEANIDS consortium met in Malaga for its 4th Plenary Meeting to review progress and align on next milestones, focusing on user-driven tools, stakeholder engagement, and project outreach. We extend our appreciation to the Port of Malaga and Malaga City Council for their excellent hosting. A visit to the Port of Malaga offered valuable insights into operations and sustainability priorities, supporting our mission for a more resilient Blue Economy.

Gold Authorized Reseller

Hexagon's Safety, Infrastructure & Geospatial division has released the **Power Portfolio 2025**, introducing major upgrades across its geospatial software suite. The new **ERDAS IMAGINE 2025 (v16.9)** and **GeoMedia 2025 (v16.9)** support faster, smarter workflows with enhanced Spatial Modeler capabilities, improved AI/deep learning performance, GeoJSON support, new spatial analysis tools, faster map rendering, and stronger data connectivity and catalog integration.

👉 Contact us for a presentation, demo, or more information, and see how Power Portfolio 2025 can elevate your geospatial work.

## **GOLDEN TWINS at CleanTech Shipping**

GEOSYSTEMS HELLAS, contractor and partner in GOLDEN TWINS, took part in the AHK Greece symposium in Piraeus and held targeted B2B meetings with key maritime stakeholders. We presented capabilities, including near real-time vessel monitoring, port congestion insights, dark vessel detection, and weather/climate intelligence, designed to strengthen operational resilience and support effective crisis management.

## Portugal

GEOSYSTEMS HELLAS participated in the 2nd TOPIO Autumn School in Portugal (6–10 October 2025), combining field activities in the Chamusca case study area with partner sessions on project progress and next steps. The week concluded with a joint meeting at the Charneca Landscape Observatory and a shared commitment to continue the collaboration at next year's Autumn School in Italy.

## EO4PORT – Project Completion

We successfully completed the **ESA EO4Port of the Future** project, delivering Earth Observation tools that enhance port monitoring and decision-making. As a key milestone, our solutions have been integrated into **ESA's APEx Geospatial Platform**, expanding their operational reach and impact.

## Green Cluster White Paper Released

We are pleased to share the Green Cluster White Paper on Cultural Heritage, Climate Adaptation and Disaster Resilience, developed jointly by the Horizon Europe projects TRIQUETRA (lead), RescueME, THETIDA and STECCI. It highlights key priorities—interoperability, data sharing,

recommendations to strengthen cultural heritage as a pillar of Europe's resilience.

### ISO 37001 - New Certification

We're pleased to announce our **ISO 37001 (Anti-Bribery Management System)** certification. This milestone strengthens our governance framework and adds to our portfolio of international standards. It enhances trust with clients, partners and stakeholders, while reinforcing our commitment to responsible, sustainable growth.

### HETiA Emerging Tech Forum 2025

We participated in, and proudly sponsored, the HETiA Emerging Tech Forum 2025 on 11 December 2025, where our CEO, Betty Charalampopoulou, spoke on the panel "Building the Future of Space Tech." We were glad to contribute to discussions on how space technologies can accelerate innovation and sustainability, highlighting the power of

## Egypt – Greece Business Forum

On 2 December 2025, we participated in the Egypt–Greece Business Forum. We exchanged views on strengthening cooperation between Greece and Egypt to support innovation and sustainable development. We acknowledge the contribution of the organizers and participants in fostering fruitful discussions and strengthening professional connections.

## Space Tech Expo Europe

GEOSYSTEMS HELLAS participated in Space Tech Expo Europe (18–20 November, Bremen) alongside the Greek delegation at the National Pavilion, with Enterprise Greece and HETiA. We showcased our Geospatial Intelligence and Earth Observation solutions for space, defence and security applications. Thank you to everyone who visited us! Our team was excited to discuss ideas, demos and collaboration opportunities.

**Proud Sponsors – 17th National  
Cartography Conference**

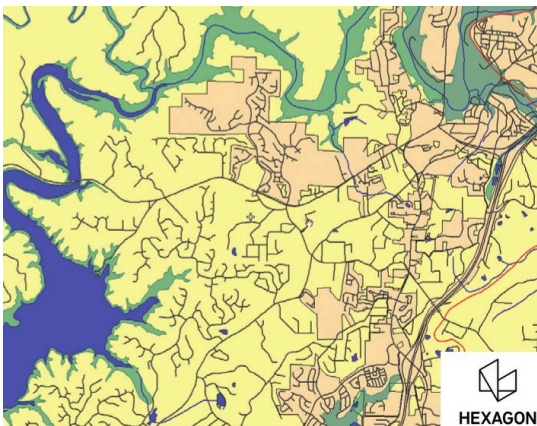

hosted at the Research Dissemination Center of Aristotle University of Thessaloniki. Supporting this important event reflects our commitment to the Greek cartography and geospatial community. We look forward to connecting with researchers, professionals and students, and to advancing innovation in GIS, remote sensing and geospatial data.

## Barcelona – Smart City Expo World Congress 2025

Our participation in Smart City Expo World Congress 2025 (4–6 November, Barcelona) was a fantastic opportunity to exchange ideas and showcase our smart-city solutions. Thank you to everyone who visited our booth and shared insights—your feedback and collaboration spirit made the experience truly valuable. We remain focused on delivering integrated geospatial intelligence solutions that support smarter planning, sustainability and efficient city operations.

## HEXAGON Seminars

We keep empowering professionals with hands-on geospatial training. We delivered the online seminar “Introduction to IMAGINE Photogrammetry - Practical Application of Core Skills” on 22 October, followed by “GIS GeoMedia: Tools and GIS Applications for Modern Challenges” on 27 November, helping teams turn data into clearer insights and better decisions.

✨ Warmest wishes from GEOSYSTEMS HELLAS ✨

We wish that this Christmas brings you joy and peace, and that the New Year 2026 is filled with health, creativity and new achievements.

A year full of good fortune, inspiring collaborations and success.

Merry Christmas & Happy New Year!

Thank you for reading our issue
